

Uromic Blues

"Cost-efficient" system for
all standard urodynamic
examination.

The Blues offers a simplicity that makes it flexible to use, either placed on a table, mounted on a wall or attached to an infusion pole stand. We also offer the unique combination of building the Blues into a 3-motor examination couch, TryTable.

- 5 channel system for complex functional diagnostics.
- System controls external motor units such as profilometric puller and cystometric/profilometric pump.
- Compatible with any standard PC or notebook.
- Small compact size, easy to transport.
- Utilises the Uromic software with all standard test protocols.
- Compatible with all the accessories.

Uromic Blues built
in to TryTable.

Uromic Blues attached
to an infusion pole stand.

Protective transport
case.
